

MACHC 2019 Emergency Preparedness Training

Description

This is a tabletop exercise and workshop for members of the Mid-Atlantic Association of Community Health Centers. Responding efficiently and effectively to a crisis can minimize the impact and ensure the preservation of life, property, environment, and the economy.

This tabletop exercise/workshop will address healthcare preparedness and response capabilities identified by the Assistant Secretary for Preparedness and Response (ASPR). These capabilities include:

- Foundation for Healthcare and Medical Readiness
- Healthcare and Medical Response Coordination
- Continuity of Health Care Service Delivery
- Medical Surge

The tabletop exercise portion will allow attendees to test their respective emergency response plans
