Note: This fact sheet includes data from Federally Qualified Health Centers (FQHCs) who meet federal health center grant requirements and are required to report administrative, clinical, and other information to the federal Bureau of Primary Health Care. Only FQHCs receiving federal health center grants report data, and therefore this fact sheet does not include data from FQHCs who do not receive these funds, known as FQHC Look-Alikes. Data reflected in this fact sheet may consequently underreport the volume of health care delivered by health centers.
